ALUMNI COMMENTS

// The program is an amazing opportunity to be introduced and guided through entering "real-world" jobs. It truly prepared me for working in a setting with lots of people, learning how to communicate when it is maybe a little bit scary, create and maintain friendships in the workplace, and how to interview effectively. I would absolutely seize the opportunity, even if you are on the fence about it. You've got this! //

// Have fun with it! This is an opportunity for you to grow as a person and as a student. Communicate to your boss what your interests are! They are there to help you understand and discover your path for the next couple of years! //
