- United Alloy
- ANGI Energy
- Alliant Energy

Participating Districts:

- Beloit
- Beloit Turner
- Janesville
- Milton
- The Lincoln Academy

EXTERNSHIP 2026

Through the Rock Externship Program, high school staff are immersed in business environments with multiple employers for one week during the summer. The information and experiences gleaned from this focused engagement – as well as the relationships forged – are intended to be incorporated into academic lesson planning and related curricula delivery models

EXTERN FEEDBACK

“ I am heartened that area employers want to invest in our youth and educators. It's good to know there are employers that are interested in joining us in the classroom. ”

“ I was not aware of the (local) opportunities that exist for our high school, as well as college, graduates that want to enter the workforce. ”

“ I loved being able to connect with all the other educators in the program to see how other schools incorporate this type of experience and learning. ”

Thank you to our sponsors of the Rock Externship program!
