- Kerry Group
- Rock County Public Health
- Seneca Foods
- SHINE Technologies
- Stainless Tank & Equipment
- The Morse Group

## Participating Districts:

- School District of Beloit
- School District of Janesville
- Beloit Turner School District
- The Lincoln Academy

# EXTERNSHIP 2025

Through the Rock Externship Program, high school staff have the ability to immerse themselves in business environments and shadow specific occupations and/or disciplines for one week during the summer. The information and experiences gleaned from this focused engagement will be incorporated into academic lesson planning and related curricula delivery models.

## EXTERN FEEDBACK

“ There’s always more to learn and the more we grow, the more we can give our students. These experiences broaden our perspectives and deepen our knowledge in ways that enrich what we already bring to the classroom. ”

“ The Rock Externship is exactly the kind of experience anyone working with high school students should have. It opens your eyes to the wide range of careers available locally and helps you better guide students; not just in choosing a path, but in shaping curriculum that truly prepares them for those opportunities. ”

“ This was a fantastic program! I truly believe every high school educator should spend time at BTC and in this program. With so many of our students staying close to home, it’s essential we understand the opportunities available right here in our own backyard. ”

“ The Rock Externship is an incredibly valuable opportunity for educators to learn what our community truly offers. There are so many strong internship and youth apprenticeship programs that often go unnoticed by teachers. I believe every superintendent, principal, and teacher should take part—so they can hear firsthand how essential soft skills are to the businesses right here in our region. ”

*Thank you to our sponsors of the Rock Externship program!*
