## INTERN INSIGHT

**100%** of interns would encourage a friend to participate

“ The program is such a great learning experience and once in a life time type of thing.

I participated in the program to further my career search; and it also looks really good on a resume to say that I took part in an internship in high school.

I had an amazing time and learned a lot. ”

-Rock Energy Systems

“ I liked that the program was geared toward high school students which gives them a head start in figuring out what career options are available within our community. ”

-Mercyhealth-Pharmacy

“ Love that this is giving a glimpse of the workforce to high school students, many don't have an experience like this until their junior year of college or later. ”
