Youth Apprenticeship

MENTOR TRAINING

What is a Youth Apprenticeship?

A Youth Apprenticeship is an "earn while you learn" program with a built-in training agreement providing on-the-job training and related instruction. The training is received on-the-job where the employer teaches the skills of the occupation. Related instruction is geared towards knowledge pertaining to a specific occupation. Related instruction can be given by many sources such as a technical college, high school, or an employer training program. Youth Apprenticeships are one- or two- year options and many can bridge into a Registered Apprenticeship.

Youth Apprenticeship mentor training will include

- Understanding the Intergenerational Workforce
- Building Effective Relationships
- Professional Workplace Mentorship Leadership
- YA Apprentice Mentor Resources Activities, YA software and much more

Training session held at Blackhawk Technical College

Monroe
